RUBELLI  
design

A new style, with a new informal and instant opulence interpreting spaces, no longer linked to the ostentation of material goods but to giving full value to the spirit. Unusual, striking combinations, layers of life-experience - both old and modern - and precious elements cohabiting perfectly with recycled items, create an atmosphere that tells a very definite story: a contrasting duality clearly expressing specific identities. The strongly personal symbols hark back to a dimension of domestic intimacy. The culture of past times takes a fresh look at the present: everything is connected, and a subtle, authentic thread really takes us back to an allure that is timeless. This is the angle from which views each individual aspect of life, both social and personal, to build an aesthetic appeal tending towards beauty - an essential principle, and intrinsic to the very nature of human beings.

#### “I Filati - Rubelli Design”

is the new collection designed in collaboration with Rubelli.

Italian key players in the field of design, although in different sectors, they are passionate about everything that rhymes with Art and Beauty.

These two similar yet at the same time profoundly different companies have joined forces, giving life to a unique project that brings together the skill and experience that are hallmarks of high-quality Italian entrepreneurial culture.

The ceramic product calls to mind the craftsmanship of the centuries-old art of silk-weaving, through large-size ceramic panels that resemble innovative fabrics, alluring to the eye and pleasing to the touch, able to preserve the very essence and fineness of hand-spun silk.
